Zurich, Switzerland - April 22, 2015 - Boldomatic (<http://boldomatic.com>), the Swiss-based content creation platform and community determined to become the number one source for everything text in both online and offline media, today announced updates and new features to its iOS and Android mobile apps. The update, available now on iOS and Android features a fully redesigned interface for both operating systems, improved messaging for iOS, photo styling features for Android, as well as the launch of a competitive badge system that rewards users with physical vouchers and discounts to the Boldomatic on-demand product shop. The new update also features improved sharing functions to Facebook, Twitter and WhatsApp, as well as improved location-based maps that indicate where Boldomatic users are posting from. Boldomatic is also launching its new affiliate program allowing bloggers and writers to earn money by integrating Boldomatic posts on their websites.

“From the onset, Boldomatic has been much more than just an app for sharing ideas,” said Steffen Schietinger, CEO of Boldomatic. “We’re an innovative community of creative writers and expanding our app’s functions and offerings allows us to further our vision to be the number one source for everything text in both online and offline media.”

Starting today, the Boldomatic team will distribute roughly 210,000 badges to the Boldomatic community to launch the badge system and every Boldomatic writer who has the app currently or downloads it today will receive a \$5.00 cash voucher, totalling \$620,000 in rewards. Criteria for receiving more rewards will be based on standard metrics, such as number of posts or likes gained, as well as more standout achievements, such as entering as a top 10 finalist in Boldomatic’s weekly global contests. The system rank will vary on a scale from one to ten with level 10 being the hardest to achieve. Some badges, such as the monthly points badge, will require a continued effort to keep the badge.

“The Boldomatic Badge System is not just a mechanism to keep users engaged - it’s designed to reward our community with something beyond the digital realm,” said Dan Krusi, CTO of Boldomatic. “Boldomatic users love sharing their ideas on the platform and now they’ll be able to earn discounts to take those ideas and put them on something tangible.”

"Affiliate members can choose whether to create very specific theme-oriented shops, products featuring their own content, or to just pull in the top trending content from Boldomatic," added Schietinger. "The integration is super simple and fast, and each sale generated through an affiliate partner will earn the referrer a share of the markup. This is just the latest venture in a continued effort to help our community make bold statements online and in real life."
